

## Expression of Interest

### Boyne Smelter Celebration Project – Phase 1

#### Scope

Local Artists in the greater Gladstone Region are invited to submit expressions of interest for public artwork to be installed adjacent to the pathway in Boyne Island between Wyndham Park and Boyne Smelters to celebrate Boyne Smelter's 40+ years of employment and community opportunities for the region.

Please see map for the exact location of the identified site of Phase 1.

Any key moments in the Boyne Smelter's timeline can be showcased. See ideas from Rio Tinto's Boyne Smelter team below:

- Something that depicts the Smelter's Infinitely Recyclable / Here For Future Generations vision – maybe a partly crushed can made from aluminium and an explanation with visuals of the recycling process the Smelter uses to better the environment and the community
- Sculptures of aluminium hands that connect with each other showing we support inclusion and diversity (or something similar)
- Showcasing the Smelter's apprenticeship program somehow which would also be in line with Here For Future Generations
- Smelter boots/hard hat artwork representing our commitment to safety
- An interpretation of the Smelter's products – billet and ingots
- BSL community contributions to the community – eg John Oxley Bridge, community partnership, etc.
